Rev. 16 adds the Gulfstream GVIII-G800.

EASA Certification Basis:

The Certification Basis for the original product remains applicable to this certificate/approval.

The requirements for environmental protection and the associated certified noise and/ or emissions levels of the product are unchanged and remain applicable to this certificate/approval.

Associated Technical Documentation:

Visionsafe Corporation Master Drawing Lists and Airplane Flight Manual Supplements required for the modification are listed on FAA Approved Model List No. ST00892LA, or later revisions of the above listed document(s) approved/accepted on behalf of EASA in accordance with the Technical Implementation Procedures of EU/ USA Bilateral Agreement.

Limitations/Conditions:

Prior to installation of this design change it must be determined that the interrelationship between this design change and any other previously installed design change and/ or repair will introduce no adverse effect upon the airworthiness of the product.

The STC is valid for aircraft types and models approved by EASA and listed on the FAA AML ST00892LA, amended 21 May 2025.

Flight Crew training requirements are listed on the Master Drawing List.
