DOCUMENT NO. 802, Rev C:
MODEL DESIGNATION CHANGE
FOR PORTABLE EVAS MODELS 107P-XXX

Effectivity: (1) **EVAS Model 107P-XXX**
(2) **Effective Date – April 12, 2012**

Description:

This notification is for all owners of portable EVAS models 107P-XXX (where -XXX refers to any combination of three numbers) or 107P-XXX-X (where-X is an alpha character). Beginning January 10, 2008, the alpha character at the end of the model number was eliminated on all new portable EVAS units. New units are currently designated as 107P-XXX. The -XXX portion of the model number did not change.

In addition, new EVAS units were engraved with the statement, “See EVAS Model Eligibility List” instead of the aircraft model name.

Effective April 12, 2012, new EVAS units will be engraved with “See Portable EVAS Model List” instead of “See EVAS Model Eligibility List”.

Effective May 10, 2012, any portable EVAS unit engraved with “See EVAS Model Eligibility List” will receive a new container engraved with “See Portable EVAS Model List”. A copy of the Portable EVAS Model List, sorted in EVAS model number order, will be enclosed with each new and serviced unit.

At the time of the 120 month rebuild, any unit engraved with model number 107P-XXX-X, will be re-assigned and engraved with the new model number. Also, any unit engraved with the aircraft model name or the eligibility list statement will be engraved with “See Portable EVAS Model List”.

Action Required:

No action is required on the part of the customer/operator.
